<p>1. Prepare Customer Data:</p>	<ul style="list-style-type: none"> -Synchronize with Dealer or Distributor's CRM -Enter and update customer information -Enter and update product information and product photos -Assign sales representative to each customer
▼	
<p>2. Sort & Select Target Customers:</p>	<ul style="list-style-type: none"> -Sort Customers by last visited day / Frequency / Industries -Select Customers from Map -Bookmark selected target customers for making appointments
▼	
<p>3. Make Appointments & Create Visit Schedule</p>	<ul style="list-style-type: none"> -Make appointments from the Bookmarked target customers -Manage appointment schedule in the Calendar -Register visit Aims & Tasks -Control and enter new appointments by Managers or Administrators

<p>4. Visiting Customers:</p>	<ul style="list-style-type: none"> -Display visiting route on the map based on the visiting schedule -Check Customer info, and other activities before the visit -Check off Aims & Tasks as you complete -Easily enter the customer comments, issues, and sales opportunities, by typing or voice entry.
▼	
<p>5. Submit Report</p>	<ul style="list-style-type: none"> -Submit Visit Report by just one tap -No need to open PC or go back to office, or write complicated sentences
▼	
<p>6. Share Information</p>	<ul style="list-style-type: none"> -Instant Info. Sharing using SNS to your 3S team & Manager -Group chat to share customer support information -Managers can instruct and guide the team through SNS
▼	
<p>7. Action Follow-up and Analysis (Web based)</p>	<ul style="list-style-type: none"> -Visually manage sales progress -Manage sales progress based on pre-set lead time -Create sales prospect report by one click -Analyse bottle-neck process, sales opportunities, visit performance

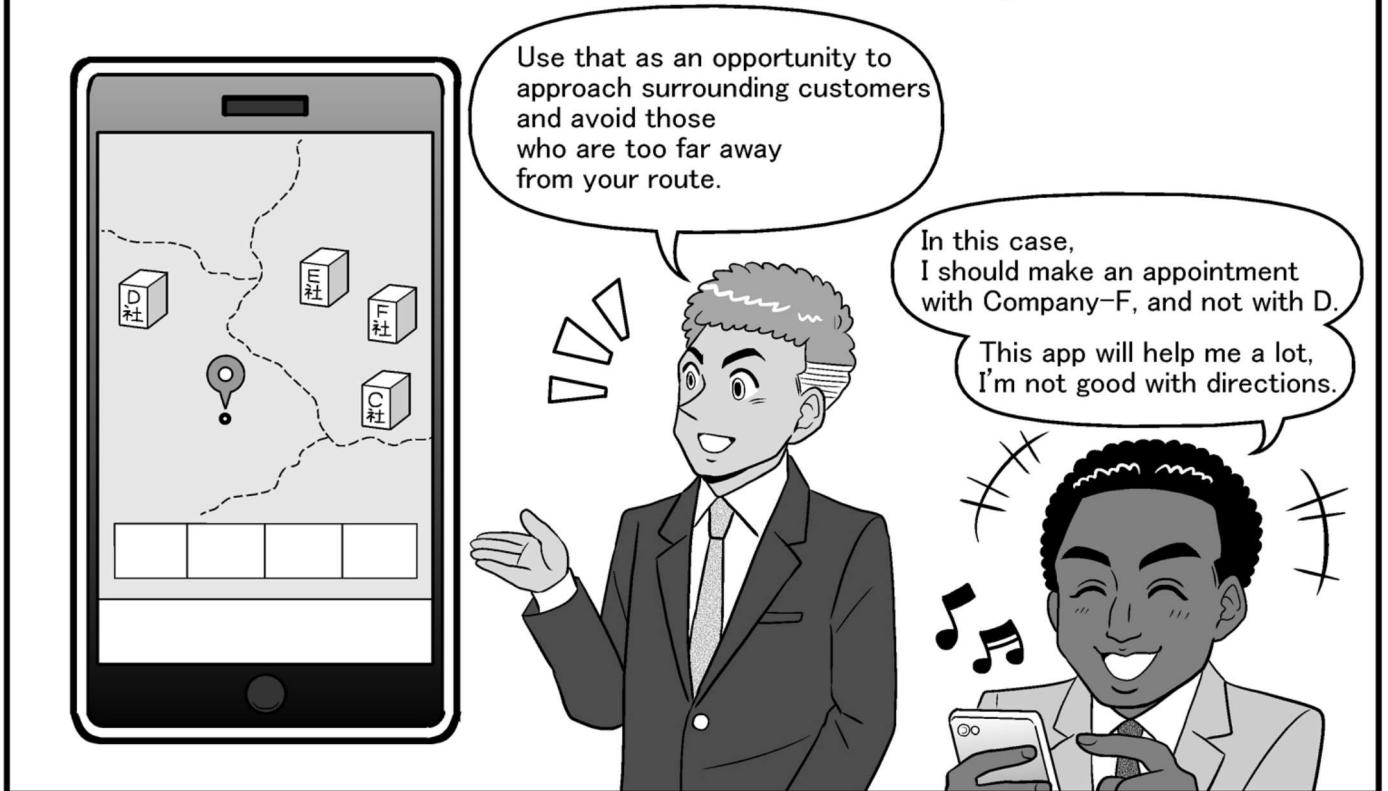

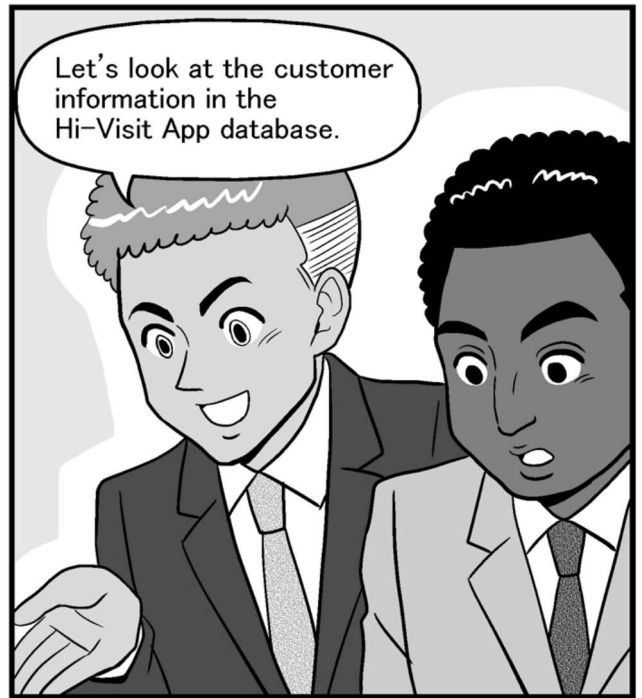

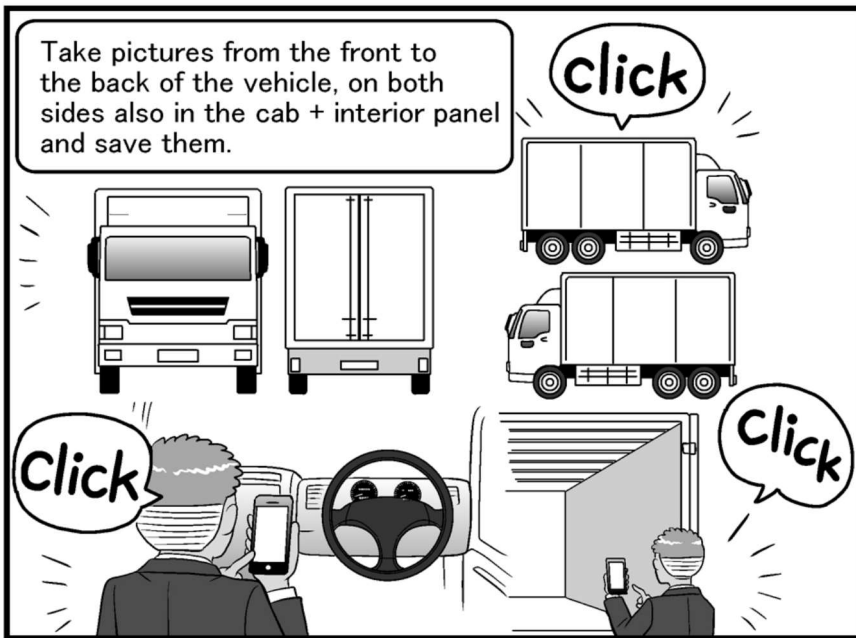

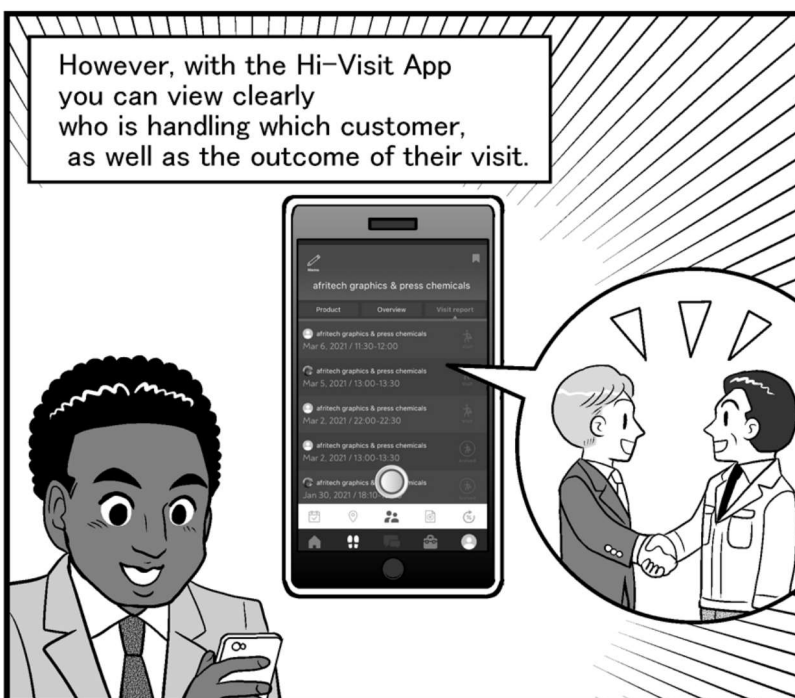

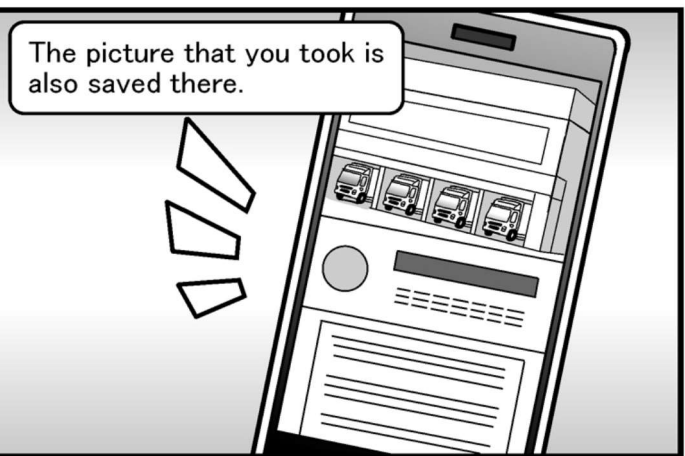

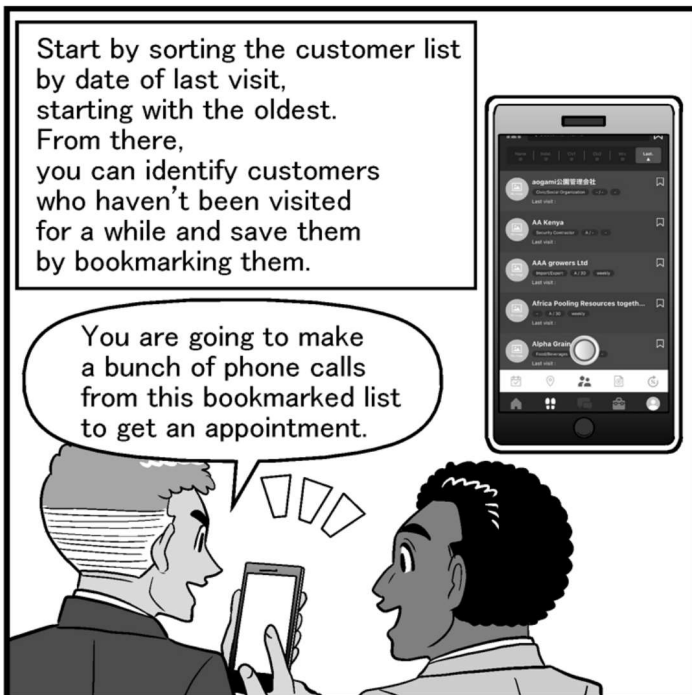

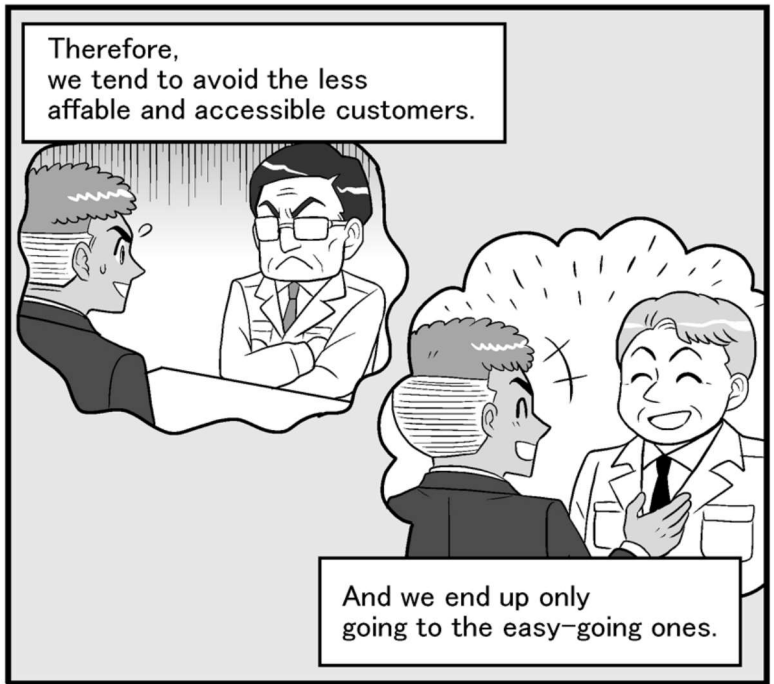

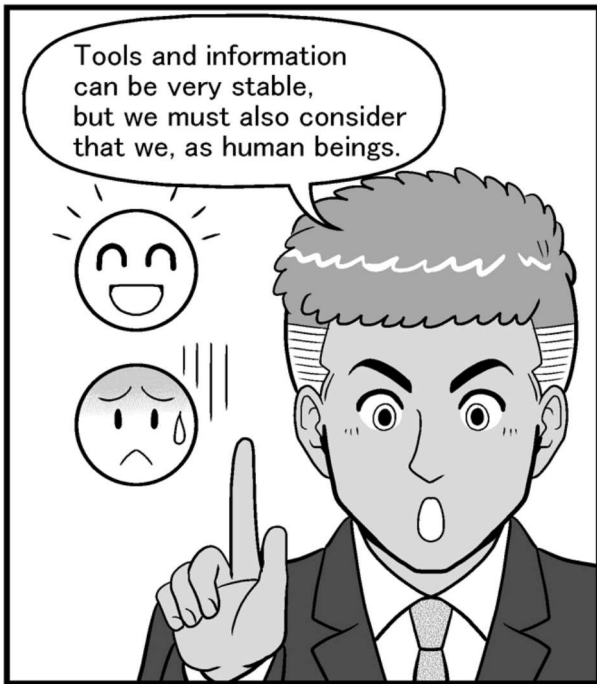

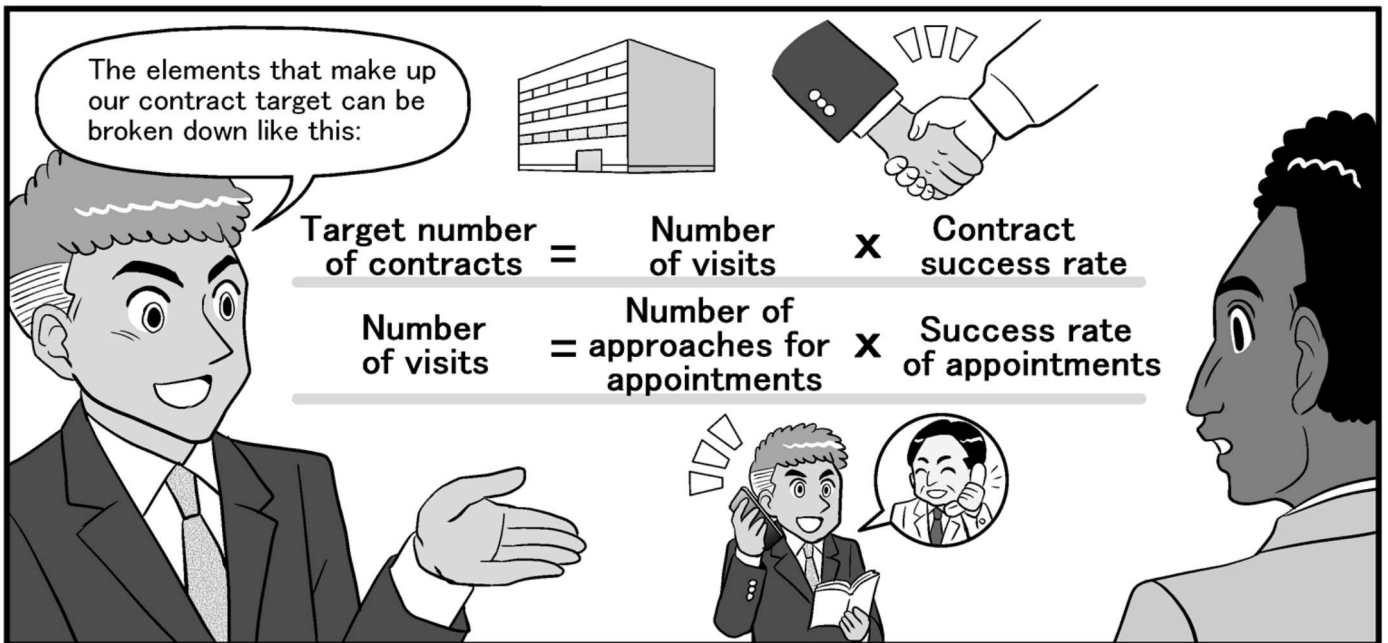

<p>Company Name, Industry, Class</p>	<p>Key person</p>
<p>Address / Contact numbers</p>	<p>Vehicle / Product information (Including any competitors' product)</p>
<p>Type and weight of cargo to be transported, and Information on general mileage and driving conditions</p>	<p>Mileage per vehicle</p>
<p>Where the customer received or purchased the services and parts</p>	<p>History of past services/parts purchases</p>

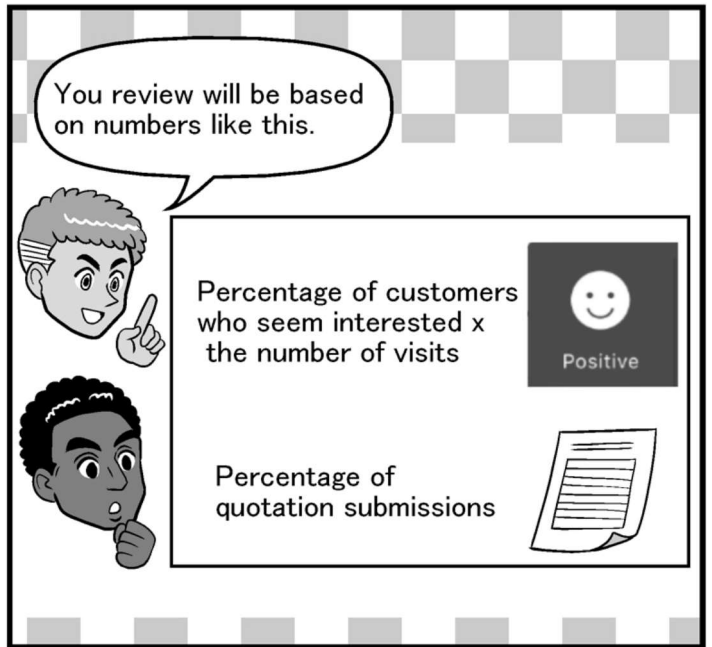

Alright.

You have a problem with your "success rate of making appointments".

Number of visits	=	Number of approaches for appointments	x	Success rate of making appointments
------------------	---	---------------------------------------	---	-------------------------------------
